COMMON LAW ADMISSION TEST

**CLAT**

**ABOUT CLAT FOCUS Tutorials**  
Our Institution's work of imparting education is more a mission and vocation than profession or business. Like other Institutions our purpose is not to establish an industry where we can exploit the career of students rather our purpose is to provide quality education with an effective plan. Welfare of the students is of Paramount consideration for our institution. Now a days educational institutions are considered as an industry because if its changed status and mode of imparting education. "Quality of educational institutions start from the prospectus of such institutions that comes to an end with its delivery in classroom". Now people have lost faith in the educational institutions of our country. We have designed our classroom programme taking into consideration in the interest of the youth since there are many institutions which are charging a hefty sum of money and taking undue advantage of their establishment and trade mark. Students are getting frustrated after joining such institutions, taking note of such issues, we aim to solve this problem of students through our classroom programme and to change the perception of people regarding educational institutions.
